@HackTJOfficial

Dear Potential Sponsor,

HackTJ is a high school hackathon organized by the Coding Lady Colonials, TJ's female computer science club. On May 16-17, 400+ of Northern Virginia's brightest high school students will come together to build mobile applications, wearables, websites -- you name it! We would love for you to join us.

Mission

Our mission is to provide ALL students with an environment in which they can gain computer science and innovative skills and then use their knowledge to build something unique.

Why Should You Help?

Come to HackTJ to meet the next generation of engineers, some of whom have already made their mark by winning college hackathons all over the country. In addition, you'll get to showcase your products, get users for your API, and help support and promote women, beginners, and minorities in CS. It will be a lot of fun, and we can't wait to see you there!

Please find attached a sponsorship tier list describing all the exciting ways in which you can be a part of HackTJ. We would absolutely love to hear from you at sponsor@hacktj.org if you have any questions or ideas. We couldn't be more excited for the hackathon, and look forward to having you as a proud HackTJ sponsor.

Best,

The HackTJ Team and Coding Lady Colonials
